Custom Fossil End Table

Green River Stone Company

internationally known for museum quality fossils and expert craftsmanship, Green River Stone Company has been a pioneer in developing many of the preparation and finishing processes used for fossil stone. This table was honed using fine tools and by hand, to a smooth matte finish, with the fossils flush with the surface. The two fish preserved within are *Priscacara liops*, quite similar to the modern sunfish or crappie. The table has been sealed with a solvent based protectant to prevent absorption of spills and stains. The hand forged steel base is sturdy and fits well in virtually every style of home decor.

FN-13**4 Day Blacktail for one hunter in Washington****Olympic Mountain Outfitters**

Our deer hunts take place in the lower elevations surrounding the Olympic and Cascade Mountains. This is prime Blacktail country. Deer season starts on the second Saturday in October. Instead of pressuring the deer early in the season though, we wait and start hunting at the very end of the month during the rut. By then the bigger bucks have located the does that have been spending their time in the food plots. Year after year our success rate has been nearly 100% on dead bucks! Needless to say, this is some of the fastest action of the year and we frequently tag out in two days or less. All camp accommodations are included with a full time cook and shower facilities and all the comforts of home. Your guide will not only put you on stand for a great shot, but he will also take care of skinning, quartering, and deboning of your game so it's ready for the processor. Not Included are hunting license and hotels before and after the hunt. Check with Mike Vaughn for any questions

FN-21**Fierce Fury .300 Win Mag w/Swarovski Z5 3.5-18x44****Arnzen Arms/Fierce/Swarovski**

THE RIFLE: The **FURY** is built off the Fierce triad action. It has all the same features and benefits of the EDGE model. The only difference between the two is that the barrel and bolt are not fluted, and the bolt is polished instead of coated in our DLC coating. The FURY comes with a 1/2-inch group guarantee as do all Fierce rifles but does not come with the certified target. Certifying the accuracy is left up to the shooter. The rifle comes with satin cerokote finish and our grey with black web or black & gray stock. THE SCOPE: THE MOUNTAIN HUNTER - When hunting in the mountains on rough terrain or when long-range shooting on plains, you can guarantee that the Z5 3.5-18x44 will be your trusty companion. The outstanding features offered by this 1-inch rifle scope are crystal-clear optics, the reliable sturdy mechanical design, and lateral parallax correction.

FN-30**Eastern (Dagestan Tur) Hunt in Azerbaijan
Asian Mountain Outfitters**

Travel to Azerbaijan to hunt Eastern (Dagestan) Tur with Asian Mountain Outfitters. This hunt is conducted using horses and a lot of mountain hiking at high elevations. The hunt is comparable to a British Columbia Mountain Goat hunt, but with minimal brush. Fog, snow and/or rain can occur on most hunts. This is typically a very difficult hunt and the hunters need to be experienced in mountain hunting (9,000-12,000', depending on the area) and long-range shooting (200-500 yards) and spiking out in a hut or backpack style tents. This Tur hunt includes 5 days of hunting plus a ½ day of driving/travel each way from Baku to the hunting area and back. If extra days are needed, they can be added for \$350/day. Each hunter has one guide and one assistant. Typical Tur sizes are 28-34". Tur of 40" + have been taken, but animals of this size are rare. Hunt dates are June thru November. The winning bidder need to coordinate their hunt dates with one or two of our other clients or you can bring a friend who books a Tur hunt. Mid-August through early October are best times for good capes, great trophy quality and small chance for snow. Later season hunting is for the more adventuresome and it is more difficult to find a big one due to more challenging weather conditions. Early hunts have great weather (hot) but the skins are with shorter hair. If the winning bidder cannot hunt during a time one of our other clients is going (we need groups of 2 hunters for logistics reasons), additional fees will apply (approximately \$1,000) to hunt a different date as it's expensive to accommodate and host just one hunter. Also, arrangements can be made to postpone hunt until 2020, with approval from Asian Mountain Outfitters; any additional license fee increases over 2019 season will be paid by the hunter though. This hunt includes one Tur with no additional trophy fees. Hunter is responsible for the flights to and from Baku, Azerbaijan (travel is thru Istanbul Turkey via LAX, Houston, San Fran, Chicago, Atlanta or JFK on Turkish Airlines), Visa (completed a couple months before departure), lodging before or after hunt (1-2 nights in hotel at \$70-150/night) and staff tips (about \$1,000). Tur became a CITES animal in 2018, so animals need to be shipped. This new CITES permit plus shipping is between \$1,600 and \$1,900 USD and is paid by the hunter before the trophy is shipped. If the hunter does not have an opportunity to harvest a Tur, there is a \$2,000 refund or credit, which can be applied to a future hunt. A non-hunting companion is welcome for \$2,500. A second Tur can be added for \$4,500 USD. If hunt space is available for additional hunters, on the same hunt date, the cost is \$9,000-10,000 depending on the number of hunters coming. Our outfitting partners speak English and they provides transportation to and from the hunting area, local guides, assistants, cooks, vehicles, horses (where needed), camps, food, lodging, and interpreter if they are not on the hunt (usually one English-speaking per camp), depending on the date and area being hunted.

SA-8**Mid-Asian Ibex Hunt****Asian Mountain Outfitters**

Asian Mountain Outfitters offers a unique and adventurous mountain hunting experience for Mid-Asian Ibex in either Kyrgyzstan or Tajikistan. This is not a North American Hunt; hunters need to be prepared for cultural/language differences, long range and sometimes quick shooting (proficient at 500+ yards). This Ibex hunt includes 5-7 hunting days, depending on the area; it requires a hunter to be relatively fit and experienced in mountain hunting. Typical Ibex size ranges from 38 - 47". An average Ibex is about 42/43". Ibex under 38" and over 47" are rare. Ibex over 47" are possible in some areas, for very fit and tough hunters willing to spike out in often harsh conditions. We hunt many areas for Ibex; some areas have bigger Ibex than others and some have easier hunting/access with nice camps; our goal is to match the client/area to better suit their abilities and goals. If a hunter prefers to do a non-horseback hunt (using pack donkeys and foot/jeep hunting), this hunt can be done in Tajikistan. The drive to the hunt camps range from 3 to 14 hours. The most common hunt dates are Sept. and Oct., but the season runs from August 15th thru Dec. 1st in Kyrgyzstan and Sept. 1st through Feb. 28th in Tajikistan. All hunting licenses and fees are included in the hunt. The hunter is responsible for the following costs: flight to and from Bishkek, Kyrgyzstan or Dushanbe, Tajikistan via Turkish Air/Istanbul, airport VIP service, meals and lodging while in Bishkek (usually 2-3 nights), extra baggage fees for taking home skin/skull or shipping of trophies home and staff tips (clients will be provided with Tip suggestions). Hunters can sometimes take the trophy(s) home in checked luggage if skins are dried enough, but many of our hunters decide to have them shipped via DHL, Fed Ex or Turkish Air Freight and cleared, using a Wildlife import broker. The hunt is to be taken during the 2019 season, but arrangements can be made to postpone hunt until 2020 (with approval from Asian Mountain Outfitters; and if Govt. fees increase, hunters pay this increase). Asian Mountain Outfitters works with partners in several different hunting areas: the Naryn and Issyk-kul Regions of Kyrgyzstan and 2 different regions of Tajik. Our Manager/interpreter/partners will meet clients at airport and assist in all aspects of the hunts. The best local guides typically do not speak English but are skilled hunters and horsemen. If it is your first trip to Central Asia, we can arrange a Western/English speaking guide to accompany you (price is a minimum of \$5,000 USD plus all their travel and trip expenses). Hunters who elect to hunt with just the local guides need to be able to assist in trophy judging & oversee skin preparations. The best attitude is to go prepared as if it is a Self-guided hunt, combined with local guides. This hunt can be upgraded to add various species.

SA-18**2 Hunter Self-Guided Sitka Blacktail/Duck Hunt on Kodiak Boat Trip****Alaska Blacktail & Bear Adventures**

Join Alaska Blacktail and Bear Adventures on the vessel-based transport hunt of a lifetime. Departing Kodiak Alaska every Thursday, mid-October thru early December the F/V Venturess departs on six-day vessel-based Sitka Blacktail Deer hunts across the entire Kodiak Archipeligo. The Kodiak Archipeligo is home to vast numbers of Sitka Blacktail deer, being aboard the floating base camp, F/V Venturess allows easy access to hundreds of miles of coastline not accessible by traditional drop-off hunting, or other operations that "homestead" the same hunting grounds year after year. The vessel Venturess **provides** you the ultimate in long range vessel-based hunting. Powered by twin diesels it is both safe and reliable, with a cruising range of nearly three thousand miles. State of the art safety equipment includes, self-inflating life rafts, EPIRB, sat phone, dual VHF's, dual GPS chart plotters, radar, and a fixed firefighting unit in the engine room. Measuring sixty-five feet with a beam of nearly twenty feet the Venturess is also the largest and most comfortable long-range vessel in the fleet. Wide walk around decks, a fully covered aft deck to get out of inclement weather, and a five-ton fish hold make the Venturess the ultimate long-range hunting vessel. Cabin amenities include six staterooms that sleep fourteen in different configurations. Three heads (marine toilets), three showers, washer and dryer, range, refrigerator, two freezers, ice maker, flat screen tv, DVD, satellite radio, basically all the comforts of home, **all meals**, snacks and beverages are included, and special dietary needs can be met by notifying the crew beforehand. Hunting equipment, licenses and tags are the only costs not covered. Hunt is to take place in 2020. Non-resident fish/hunt/deer tags are approximately \$1100.

Red, White, and Blue

The American flag consists of thirteen equal horizontal red and white stripes, alternating of red and white. The red represents valor and bravery, the white represents purity and innocence and the blue represents vigilance, perseverance, and justice. The flag bares fifty small, white, five-pointed stars arranged in nine offset horizontal rows. The 50 stars on the flag represent the 50 states of the United States of America, and the 13 stripes represent the 13 British colonies that declared independence from the Kingdom of Great Britain, which became the first states of the United States of America.

This flag was flown in the Northeast Kunar province of Afghanistan, at Forward Operating Base (FOB) Wright in 2013, which overlooked the city of Asadabad. The flag flew over the Kunar River, which flows North to South in the Kunar Valley. On the East side of the valley was the Pakistani Hindu Kush mountain range. On the West side of the valley overlooked the majestic mountains of Afghanistan. Over time, either this American flag or its brother witnessed American Soldiers and their counter parts consistently moving forward with the any given mission. It flew in all weather conditions, day and night, 24/7, and it witnessed small arms fire sprayed at the FOB, rockets and mortars aimed and fired directly at our buildings, it shed tears over the blood and the loss of our fallen brothers and sisters. However, at the end of the day or the current mission, it remained flying representing the strong bond of the living Soldiers ready to fight the next fight. For God, Country, and Glory, ultimately preserving freedom for all Americans.

Respectfully,

12-Day Stone Sheep Hunt in the Yukon

Yukon Big Game Outfitters

Yukon big game outfitters is owned and outfitted by Shawn Raymond, now into his 25th year. He took his first ram at the age of 15, and has been hunting Stone's since the mid 80's. Shawn's focus with Yukon Big game is to provide top quality hunting trips with premium trophy's for the serious client. In 2018 Shawn was given the oldest average age award presented by the Yukon outfitters association. His average ram was 12.7 years old, with an average size of 38 inches. With Shawn you can expect to hunt trophy Stone Sheep in the Cassair & Pelly mountain ranges (concession 20) of the Yukon. In addition to guiding, Shawn is also a super cub pilot which is used to support his clients. The staff has been with Shawn for several years, and he will make sure you will have a knowledgeable hard working guide who has what it takes to get you a Stone. The largest sheep taken in his area a couple years ago were two 44 inch rams that both made 170, and where 15.5 year old. In 2018 Shawn's longest ram was 42.5 and was 14.5 years old. The area is lightly hunted and if you are willing to climb and stay the length of the trip you can expect to harvest a stone sheep. Yukon big games takes a limited amount of sheep hunters and runs above an 80 % success rate. Other game is abundant but the focus of this hunt will be placed on stone sheep. Please email Shawn for his current hunt report or with any questions you may have. He hunts from 6 different sheep camps in his area, and rotates from year to year scouting and looking for the oldest and biggest sheep. The Yukon's darkest rams come from Shawn's area. "Signs of Autumn" original Oil on Canvas

Jim Hansel

Jim Hansel, one of America's premier wildlife, nature and landscape artists, is an artist with a twist. At the age of 12, Jim was diagnosed with a degenerative eye condition called Stargardts; this eye condition has left him legally blind. But in spite of his limited vision, he pursued his passion for painting with the use of low vision devices and has become one of the most collected artists in the United States and Canada. Jim has said that he wants his artwork to be judged on its own merit and not on the bias that he is an artist with a visual impairment. This determination has launched him into the national spotlight. Since the release of his first image in 1987, Jim has produced over 200 limited edition prints. This Original (45" x 30") Oil on Canvas is Jim's latest whitetail painting. *Signs of Autumn*, which highlights Jim's excellent attention to detail throughout the entire piece.

SN-32**2019 WYOMING GOVERNOR'S ROCKY MOUNTAIN BIGHORN SHEEP LICENSE**

Wyoming Governor Matt Mead, the Wyoming Game and Fish Commission & Department, the Wyoming Governor's Big Game License Coalition and the Wyoming Wild Sheep Foundation The 2019 Wyoming Governor's Bighorn Sheep License is valid in any open hunt area having more than eight ram licenses issued. The number of licenses issued per hunt area may change from year to year. Seasons and license numbers for fall 2019 will be finalized in April 2019. In 2018, this license was valid in seven hunt areas: #1, 2, 3, 4, 5, 7, & 8. These hunt areas account for over 80% of Wyoming's annual Rocky Mountain sheep harvest. Successful purchaser may hunt any open hunt area that qualifies in accordance with the above. The purchaser does not have to pick a specific hunt area and may hunt different hunt areas. The five-year waiting period between bighorn sheep licenses does not affect the ability to purchase a Governor's bighorn sheep license, and purchasing this license is independent of applying for a bighorn sheep license through the draw system. The license fee (\$122 for resident, \$2,266 for non-resident) is waived. Preference pints are not affected by purchase of a WY Governor's Bighorn Sheep License. 90% of the auction proceeds provide funding for Wyoming bighorn sheep projects via the Wyoming Governor's Big Game License Coalition.
