**FN-22****Mid-Asian Ibex Hunt****Asian Mountain Outfitters**

Asian Mountain Outfitters offers a unique and adventurous mountain hunting experience for Mid-Asian Ibex in either Kyrgyzstan or Tajikistan. This is not a North American Hunt; hunters need to be prepared for cultural/language differences, long range and sometimes quick shooting (proficient at 500+ yards). This Ibex hunt includes 5-7 hunting days, depending on the area; it requires a hunter to be relatively fit and experienced in mountain hunting. Typical Ibex size ranges from 38 - 47". An average Ibex is about 42/43". Ibex under 38" and over 47" are rare. Ibex over 47" are possible in some areas, for very fit and tough hunters willing to spike out in often harsh conditions. We hunt many areas for Ibex; some areas have bigger Ibex than others and some have easier hunting/access with nice camps; our goal is to match the client/area to better suit their abilities and goals. If a hunter prefers to do a non-horseback hunt (using pack donkeys and foot/jeep hunting), this hunt can be done in Tajikistan. The drive to the hunt camps range from 3 to 14 hours. The most common hunt dates are Sept. and Oct., but the season runs from August 15th thru Dec. 1<sup>st</sup> in Kyrgyzstan and Sept. 1<sup>st</sup> through Feb. 28<sup>th</sup> in Tajikistan. All hunting licenses and fees are included in the hunt. The hunter is responsible for the following costs: flight to and from Bishkek, Kyrgyzstan or Dushanbe, Tajikistan via Turkish Air/Istanbul, airport VIP service, meals and lodging while in Bishkek (usually 2-3 nights), extra baggage fees for taking home skin/skull or shipping of trophies home and staff tips (clients will be provided with Tip suggestions). Hunters can sometimes take the trophy(s) home in checked luggage if skins are dried enough, but many of our hunters decide to have them shipped via DHL, Fed Ex or Turkish Air Freight and cleared, using a Wildlife import broker. The hunt is to be taken during the 2020 season, but arrangements can be made to postpone hunt until 2021 (with approval from Asian Mountain Outfitters; and if Govt. fees increase, hunters pay this increase). Asian Mountain Outfitters works with partners in several different hunting areas: the Naryn and Issyk-kul Regions of Kyrgyzstan and 2 different regions of Tajik. Our Manager/interpreter/partners will meet clients at airport and assist in all aspects of the hunts. The best local guides typically do not speak English but are skilled hunters and horsemen. If it is your first trip to Central Asia, we can arrange a Western/English speaking guide to accompany you (price is a minimum of \$5,000 USD plus all their travel and trip expenses). Hunters who elect to hunt with just the local guides need to be able to assist in trophy judging & oversee skin preparations. The best attitude is to go prepared as if it is a Self-guided hunt, combined with local guides. This hunt can be upgraded to add various species.

**FN-29****Archery Moose hunt for 2 hunters in Alberta****Saskadrenaline Outfitters**

We offer top quality moose hunts in Alberta's most remote, untouched wilderness on the edge of the Rocky Mountains with little hunting pressure. If you want a great chance at a 50 " bull, this hunts for you!

Our all-inclusive moose hunts are during the rut in late September and early October. We hunt by calling the big bulls in close. To have a moose come to a call is one of the most exciting moments you can ever have hunting. The moose in our area can grow over 60" and can be very spectacular with long, wide paddles, and big fronts! There have been multiple moose taken in this area that have exceeded the Boone and Crockett minimum! Saskadrenaline Outfitters have won the buckle for top guided moose last two years in Alberta, Canada. The only thing more exciting than hunting giant bull moose in the rut, is doing it with nothing but the old stick and string! Moose hunting at this time of the year can sometimes be the most productive when the bulls are just starting to search for cows. A lone bull is more susceptible to come into a cow call than one that has already found a mate and depending on the mood he's in you may get quite the show! Generally, your best times to hunt are early morning and just before dark but if you get some cooler weather especially mixed with some precipitation the hunting can be incredible all day. This is a 2 on 1 guided trophy hunt meaning there will be 2 hunters per 1 guide. You will be the only two hunters in camp hunting the best week for archery moose. The hunt includes seven days of fully guided archery moose hunting, hotel accommodations, meals, rifle wolf/coyote hunting, and trophy preparation. You are responsible for licenses (Wildlife certificate \$68.22, bow hunting permit \$23.20, wolf license \$12.40, and a moose license \$310.30 CAD funds), travel to and from camp (4 1/2 drive from Edmonton, and a 1.5-hour drive from Grande Prairie), and 5% GST.

**SA-9****Custom Hearing Protection****Sound Gear**

Sound Gear Custom Molded Platinum devices have 4 distinct memory modes to toggle through. The first memory (Normal) delivers amplification equally across all frequencies. The second (High-Frequency Boost & Max Wind Management) boosts higher frequency sounds like the whistling wings of duck's overhead and has algorithm that will detect wind noise and send a counter signal to drastically reduce it. This will help people who have an existing high-frequency hearing loss hear better, but also work well for clarity of sound on those windy days in the field. The third Memory (Telecoil) helps you effectively communicate on a telephone and the fourth memory (Mute) is used to mute or turn off your device. Each pair of SoundGear custom devices also comes standard with a removable lanyard system.

**SN-19****Costal British Columbia Mt. Goat Hunt for 1 Hunter****Wild Coast Outfitters**

Take a peek at the books... Four out of Five of the Boone & Crockett All Time top Mountain Goats call this region we're smack in the middle of home, the only odd goat out in the five is from just across the border in Alaska, in the same mountain range. This is *the* place for big billies, the goats are here aplenty and at altitudes lower than inland. We pay for that quality in rainfall, but that is why everything here grows so big. Come chase your monster on the Wild Coast, hunts are remote, and you will not be competing with other hunters, the scenery is unbelievable, and the experience wild and genuine. Hunts are by backpack and are alpine arrangements so decent physical condition plays a large part in the hunter's experience. We fly in by bush plane which gives you access to truly remote territory far from roads and other hunters, as well as doing a bunch of the altitude gaining leg work for you, you'll land right at the base of the Alpine on the tree line. A hell of a hunt and ride, with the most impressive trophies, and we're up for the challenge if you are! Hunt will be guided by Wild Sheep Society of BC members Chris Barker or Mike Southin. This hunt includes the bush plane flight as well! Not Included: getting to BC, Tag/License, and tips. Hunt dates are: August 9<sup>th</sup>-17<sup>th</sup>, 2020 and cannot be delayed. Arrival and departure point will be Smithers, BC.

**SN-24****5th ANNUAL WILD SHEEP JURASSIC CLASSIC STURGEON FISHING TOURNAMENT TRIP FOR 2 ANGLERS  
JURASSIC CLASSIC COMMITTEE - WSSBC AND GOABC**

Working with the support of the Wild Sheep Foundation, the WSSBC (Wild Sheep Society of BC) and the GOABC (Guide Outfitter Association of BC) have come together to bring you the 5th Annual Jurassic Classic Sturgeon Fishing Tournament which will take place on the majestic Fraser River in British Columbia, Canada. This collaborative event brings conservationists together from across North America to raise funds for wild sheep conservation projects in British Columbia. This event is being offered Aug 14-17th, 2020 and will include 28 professionally guided teams, each consisting of two anglers, from all across North America. Join us in Chilliwack, BC for two all-inclusive days of world-class sturgeon fishing, meals, three nights hotel accommodations, topped with an awards banquet on the final evening of the weekend. Last year the prize package was valued at \$10,000. This is not your standard 'fishing trip' and is exclusive to only those who purchase teams through conservation chapters and affiliates. The focus on this trip is to promote and support wild sheep projects in British Columbia and provide the 56 anglers with some great camaraderie and friendly competition. The overlying theme of this event is to show up and enjoy a weekend where we take care of all of the details. All participants will be treated to a Wild Game BBQ on the shores of the mighty Fraser River on the Saturday evening. This two-day fishing trip is provided by Great Rivers Fishing Adventures who offer fully guided world-class white sturgeon charters with fish that can exceed 1500 pounds and 13 feet in length. Come out and support BC wild sheep projects and enjoy a great weekend on the river. Last year this event was a great success and raised over \$50,000 for wild sheep projects across British Columbia. This year the demand for teams will be high, so this is your chance to be a part of this unique event

**SN-29****10 Day Alaska Dall Sheep Hunt for 1 Hunter****Midnight Sun Safari's**

Alaska Dall Sheep Hunting. If you are looking for a real Alaskan trophy Dall sheep and big game Outfitter, then hunt with Midnight Sun Safaris. Our Alaska Dall sheep hunt takes place primarily in the historically game rich country of the Central Range east of the Alaska Denali National Park. These Alaska hunting trips are ten days in duration and begin in early August and end on the 20th of September. The average Alaska Dall Sheep Ram is 35-36 inches long with 13'+ bases. We do typically take several Rams a year in the 38'-40'+ range. The Alaska Range Rams are known for their wide flaring and light-colored horns and make a fine addition to any hunter's trophy room. A typical Sheep hunts entail riding up and down various drainages looking for a respectable Ram to go after. We like to tell hunters that they can expect to have a 5-7 hour, fairly arduous, climb from the time they leave the horses until they pull the trigger. The guide will cape and prepare the trophy and meat for the pack back to the horses. The guide will carry all the meat (100-120 lbs.) and we expect the client to carry the trophy (35lbs. for a shoulder mt. and 65-75 lbs. for a full body mt.) back to the horses. For this reason, we require the client to bring a backpack of at least 3500 cu. in. capacity. Quite often we can hunt Alaska Dall sheep right out of my two main camps but on occasion we will spike out for 2-5 days looking for a respectable ram to harvest. When we do, we'll be staying in a good quality four season mountain tent and eating freeze dried food until we can add some fresh Alaska Dall Sheep to the menu. These hunts require the hunter to be both physically fit and have the mental toughness to stay positive when mother nature and the elements may seem to be conspiring against us. The horses allow us to cover an infinite amount of country as compared to backpack hunting for the Dall Sheep. If you have the right attitude and go, get it spirit I am confident we can put you on the Alaska Ram of your dreams! The dates of this hunt are August 21<sup>st</sup>-30<sup>th</sup>, 2021.

**SN-31****8-Day Caribou Hunt for 2 Hunters in Alaska****Magnusson Alaskan Outfitters**

This is a 2 client to 1 guide fully guided Caribou hunt out of Cold Bay Alaska for September of 2021. Hunters will need to book their own flights to and from Cold Bay Alaska. Outfitter (MAO) will pick up the hunters in Cold Bay on agreed upon dates in a Piper Super Cub and transport them into the field. From here the Outfitter will take care of the clients for 8 days of hunting and 2 days of travel for 10 days total. The hunt is for 1 caribou for each hunter, but they may take a second caribou, for an additional trophy fee of \$4000 plus tag cost. Wolf is open as well and is free of any trophy fee's, no tag required, 10 wolves per day! Hunters may also want to bring a fishing rod for trout fishing and a shotgun for waterfowl and ptarmigan hunting. The hunters can expect to see tons of wildlife including giant brown bears and expect to kill trophy quality caribou.

**SN-33****2020 WYOMING GOVERNOR'S ROCKY MOUNTAIN BIGHORN SHEEP LICENSE**

Wyoming Governor Mark Gordon, the Wyoming Game and Fish Commission & Department, the Wyoming Governor's Big Game License Coalition, and the Wyoming Wild Sheep Foundation are pleased to provide the Eastern Chapter of the Wild Sheep Foundation with a 2020 Rocky Mountain Bighorn Sheep License for auction. The 2020 Wyoming Governor's Bighorn Sheep License is valid in any open hunt area having more than eight Type 1 ram licenses issued. The number of licenses issued per hunt area may change from year to year. Seasons and license number for Fall 2020 will be finalized in April 2020. In 2019, this license was valid in hunt areas: #1, 2, 3, 4, 5, 7 & 8. These hunt areas account for over 85% of Wyoming's annual Rocky Mountain bighorn sheep harvest. Successful purchaser may hunt any open area that qualifies in accordance with the above. The purchaser does not have to pick a specific hunt area and may hunt different hunt areas. The five-year waiting period between bighorn sheep licenses does not affect the ability to purchase a Governor's bighorn sheep license, does not affect purchaser's preference points, and purchasing this license is independent of applying for a bighorn sheep license through the draw system. The license fee is also waived. 90% of the auction proceeds provide funding for Wyoming bighorn sheep projects via the Wyoming Governor's Big Game License Coalition and the Wyoming Wild Sheep Foundation

100% of the proceeds being returned to the ND Game & Fish Department for bighorn sheep management. The statewide license is open to residents and non-residents, non-transferable, and valid only during the 2020 season, which runs from October 30 – December 31. Success rates are typically 100%, but hunters should be aware that guiding and outfitting are prohibited on all public lands in the state. Therefore, hunters should plan on several days of scouting prior to their hunt. This year's fortunate hunter will follow in the footsteps of Theodore Roosevelt as he or she pursues a bighorn sheep in the badlands of North Dakota. Harvesting a ram in the 170s is typical. A 5% buyer's premium will be applied to the auction price by WSF – Midwest for wild sheep management initiatives

**SN-45****Yukon Stone Sheep Hunt****Yukon Big Game Outfitters**

Yukon big game outfitters is owned and outfitted by Shawn Raymond, now into his 26th year. He took his first ram at the age of 15, and has been hunting Stone's since the mid 80's. Shawn's focus with Yukon Big game is to provide top quality hunting trips with premium trophies for the serious client. In 2018 Shawn was given the oldest average age award presented by the Yukon outfitters association. His average ram was 12.7 years old, with an average size of 38 inches. With Shawn you can expect to hunt trophy Stone Sheep in the Cassair & Pelly mountain ranges (concession 20) of the Yukon. The staff has been with Shawn for several years, and he will make sure you will have a knowledgeable hard-working guide who has what it takes to get you a Stone. The largest sheep taken in his area a couple years ago were two 44-inch rams that both made 170, and where 15.5-year-old. In 2018 Shawn's longest ram was 42.5 and was 14.5 years old. The area is lightly hunted and if you are willing to climb and stay the length of the trip you can expect to harvest a stone sheep. Yukon big games takes a limited amount of sheep hunters and runs above an 80 % success rate. The Yukon's darkest rams come from Shawn's area. Up for auction is a 11-Day horseback/backpack Stone Sheep hunt on a harvest fee basis. The dates of this hunt are 8/12/20 – 8/25/20, 10/20/20-10/31/20, 8/25/21-9/5/21, or 10/20/21-10/31/21, no alternate dates will be available. Hunters can harvest a moose or grizzly at no cost if no ram is taken, all tags will be provided. If a Ram is taken, moose and grizzly can be harvested for \$12,000.00 each. The trophy fee for a Stone sheep harvest on this hunt \$20,000.00 this hunt, this allows hunters an opportunity to hunt for stone sheep with our paying the premium price. Regular hunts with this outfitter run \$53,000 for 2020. This is a fully guided hunt that includes: lodging (main camp and remote spike camps), meals, trophy/meat care. Not included: Trophy Fee for Stone Sheep (\$20,000), Hotels in Whitehorse before/after hunt, Tag and License (\$800), Bush Charter (\$2900) on early date only, tips, and trophy fees for additional animals. The later date offered is a prime hunt where sheep are easily located moving into their winter range, the area has already been pre-scouted, the August-September date is a horse back or back pack hunt in good hunting country where the outfitter is transitioning from regular sheep hunts while the moose are starting to rut in the high country. These hunts are conducted in proven areas where many big rams have been taken in previous years!

**SN-48****Eastern (Dagestan Tur) Hunt in Azerbaijan****Asian Mountain Outfitters**

Travel to Azerbaijan to hunt Eastern (Dagestan) Tur with Asian Mountain Outfitters. This hunt is conducted using horses and a lot of mountain hiking at high elevations. The hunt is comparable to a British Columbia Mountain Goat hunt, but with minimal brush. Fog, snow and/or rain can occur on most hunts. This is typically a very difficult hunt and the hunters need to be experienced in mountain hunting (9,000-12,000', depending on the area) and long-range shooting (200-500 yards) and spiking out in a hut or backpack style tents. This Tur hunt includes 5 days of hunting plus a ½ day of driving/travel each way from Baku to the hunting area and back. If extra days are needed, they can be added for \$350/day. Each hunter has one guide and one assistant. Typical Tur sizes are 28-34". Tur of 40" + have been taken, but animals of this size are rare. Hunt dates are June thru November. The winning bidder need to coordinate their hunt dates with one or two of our other clients or you can bring a friend who books a Tur hunt. Mid-August through early October are best times for good capes, great trophy quality and small chance for snow. Later season hunting is for the more adventuresome and it is more difficult to find a big one due to more challenging weather conditions. Early hunts have great weather (hot) but the skins are with shorter hair. If the winning bidder cannot hunt during a time one of our other clients is going (we need groups of 2 hunters for logistics reasons), additional fees will apply (approximately \$1,000) to hunt a different date as it's expensive to accommodate and host just one hunter. Also, arrangements can be made to postpone hunt until 2021, with approval from Asian Mountain Outfitters; any additional license fee increases over 2020 season will be paid by the hunter though. This hunt includes one Tur with no additional trophy fees. Hunter is responsible for the flights to and from Baku, Azerbaijan (travel is thru Istanbul Turkey via LAX, Houston, San Fran, Chicago, Atlanta or JFK on Turkish Airlines), Visa (completed a couple months before departure), lodging before or after hunt (1-2 nights in hotel at \$70-150/night) and staff tips (about \$1,000). Tur became a CITES animal in 2018, so animals need to be shipped. This new CITES permit plus shipping is between \$1,600 and \$1,900 USD and is paid by the hunter before the trophy is shipped. If the hunter does not have an opportunity to harvest a Tur, there is a \$2,000 refund or credit, which can be applied to a future hunt. A non-hunting companion is welcome for \$2,500. A second Tur can be added for \$4,500 USD. If hunt space is available for additional hunters, on the same hunt date, the cost is \$9,000-10,000 depending on the number of hunters coming. Our outfitting partners speak English and they provides transportation to and from the hunting area, local guides, assistants, cooks, vehicles, horses (where needed), camps, food, lodging, and interpreter if they are not on the hunt (usually one English-speaking per camp), depending on the date and area being hunted.
