North America's best BIG Bear opportunity! What's his secret? Tim has a highly guarded secret system to beat big smart bears that Tim has developed over a 25-year obsession. Numerous guides and hunters claim that it is not possible for a hunter to harvest a BIG Bear every year. Tim has proven them all wrong year after year personally harvesting 15 BIG Bears 400 to nearly 700 pounds plus many more between 300 and 400 pounds. Tim also has videotaped and or witnessed hundreds more all here in Minnesota! Now for the 1st time Tim is offering a limited number of hunts to hardcore BIG Bear hunters. I am not a 150 pound bear factory, I am a BIG Bear Specialist! This is a 7- Day Hunt, although you may harvest in 1 to 3 days; you will be hunting multiple baited BIG Bear setups, with multiple BIG Bears. You will be hunting from tree stands & ground blinds. Tracking & field dressing is included. Cooler & Meat processing is available nearby. Located in the over the counter no quota zone in Northern Minnesota. Success rates are typically 100%, but hunters should be aware that guiding and outfitting are prohibited on all public lands in the state. Therefore, hunters should plan on several days of scouting prior to their hunt. This year's fortunate hunter will follow in the footsteps of Theodore Roosevelt as he or she pursues a bighorn sheep in the badlands of North Dakota. Harvesting a ram in the 170s is typical. SN-21**10 Day Alaska Dall sheep Hunt for 1 Hunter****Midnight Sun Safari's**

Alaska Dall Sheep Hunting. If you are looking for a real Alaskan trophy Dall sheep and big game Outfitter, then hunt with Midnight Sun Safaris. Our Alaska Dall sheep hunt takes place primarily in the historically game rich country of the Central Range east of the Alaska Denali National Park. These Alaska hunting trips are ten days in duration and begin in early August and end on the 20th of September. The average Alaska Dall Sheep Ram is 35-36 inches long with 13'+ bases. We do typically take several Rams a year in the 38'-40'+ range. The Alaska Range Rams are known for their wide flaring and light-colored horns and make a fine addition to any hunter's trophy room. A typical Sheep hunts entail riding up and down various drainages looking for a respectable Ram to go after. We like to tell hunters that they can expect to have a 5-7 hour, fairly arduous, climb from the time they leave the horses until they pull the trigger. The guide will cape and prepare the trophy and meat for the pack back to the horses. The guide will carry all the meat (100-120 lbs.) and we expect the client to carry the trophy (35lbs. for a shoulder mt. and 65-75 lbs. for a full body mt.) back to the horses. For this reason, we require the client to bring a backpack of at least 3500 cu. in. capacity. Quite often we can hunt Alaska Dall sheep right out of my two main camps but on occasion we will spike out for 2-5 days looking for a respectable ram to harvest. When we do, we'll be staying in a good quality four season mountain tent and eating freeze dried food until we can add some fresh Alaska Dall Sheep to the menu. These hunts require the hunter to be both physically fit and have the mental toughness to stay positive when Mother Nature and the elements may seem to be conspiring against us. The horses allow us to cover an infinite amount of country as compared to backpack hunting for the Dall Sheep. If you have the right attitude and go, get it spirit I am confident we can put you on the Alaska Ram of your dreams! The dates of this hunt are August 21st-30th, 2022.
